the loan closing!**

Market loan rates are posted daily to the credit union. Market rates posted assume a one-point fee. Rate discounts are reflected as a reduction to the posted Market rate without any additional closing point fees paid. Market rates and Discounts are subject to change at any time without notice. Discount applies to Conventional Fixed Rate Portfolio Loans excluding loans originated with any special assistance programs or governmental loan programs and only for new loan purchases or refinances from another lender. Market rates are determined by a multitude of factors including loan term, credit score, loan type and purpose, down payment, and loan to value. Rates quoted are estimates only until a Rate Lock Agreement is executed based on pre-approvals. Qualifications apply. See Loan Officers for more details. Gale Credit Union NMLS# 423074.
